

K-Love has served me as a resident of the local community by bringing Lord's word and praise into my life on a daily basis, not just on Sunday. The local community will miss K-Love's message of the Lord and the love he has for everyone of us, which I believe is causing us to stop, think, and react in a kinder gentler manner with each other in our daily routines.

Without K-Love's message of hope and love being available to my community I know it will result in negative, lost, hopeless, angry feelings to grow again in us again. The love and kindness and God driven lives that have been helped by listening to K-Love is not to be thought of lightly. I hope you will decide that K-Love and other stations like them are very important.
